PROFESSIONAL SUMMARY

Data & Insights Analyst with 3+ years of experience analyzing consumer survey and FMCG tracking data across international markets. Turns raw survey datasets into executive-ready insights, dashboards, and client-facing presentations, with a graphic-design background that makes findings clear for non-technical stakeholders. Skilled in SQL, Python, Excel, and data storytelling, with hands-on experience in quota management, wave-over-wave validation, significance testing, and stakeholder reporting.

CORE SKILLS & TOOLS

Domain: Consumer Insights, Survey & Tracking Studies, FMCG Research, Market Research, Panel & Quota Management, Stakeholder Reporting

Data Analysis: SQL (BigQuery, PostgreSQL), Python (Pandas, Matplotlib), Advanced Excel, Descriptive Statistics, Segmentation, Significance Testing

Visualization & BI: Data Storytelling, Dashboard Design, Chart Design, Executive Reporting; Power BI, Tableau (familiar)

Data Communication: PowerPoint, Keynote, Adobe Illustrator, InDesign, Figma, Visual Hierarchy, Information Design

Collaboration: JIRA, Confluence, Agile Workflows, Slack, MS Teams, Remote Collaboration

Languages: Greek (Native), English (Fluent)

PROFESSIONAL EXPERIENCE

Data & Insights Analyst / Information Designer — Braincandy Apr 2023 – Present • Full-time Remote

- Designed and delivered research presentation decks for 20+ major FMCG clients, translating raw survey data (up to 1,200 respondents per wave) into actionable insights for executive stakeholders.
- Directed survey operations and panel quotas across 4 international markets, maintaining strict data integrity and achieving 100% on-time delivery across all tracking datasets.
- Built standardized visual frameworks, chart libraries, and slide templates that streamlined the reporting process by ~50% and improved consistency across cross-functional teams.
- Performed wave-over-wave statistical validation and significance testing to ensure data accuracy and support strategic business recommendations.
- Mentored junior analysts on data visualization best practices, reducing QA errors and improving overall team output quality.

Research Analyst — Hellenic Foundation for Research & Innovation (ELIDEK) Nov 2021 – Jan 2022 • Contract

- Processed geospatial and environmental datasets in Python (Pandas) for academic research on Natura 2000 areas; designed maps and charts translating ecological metrics for non-technical partners and scientific committees.

Data Analyst — Callisto NGO Sep 2021 – Oct 2021 • Volunteer

- Cleaned and structured raw wildlife-observation data for the Life Arcprom A2 brown bear tracking study, and built targeted visual reports on conservation metrics to guide habitat-protection priorities.

Data Entry Specialist — Hellenic Statistical Authority (ELSTAT) Jan 2015 • Seasonal

- Audited and maintained large-scale agricultural datasets, ensuring compliance with national statistical protocols.

ADDITIONAL GRAPHIC DESIGN BACKGROUND

Freelance Graphic Designer (Self-employed, 2020–2022 & 2014–2016) • Graphic Designer, Exalco S.A. / Biokarpet (2018–2020, in-house) • Graphic Design Intern, The Smalls Larissa (2016–2017). Branding, layout, typography, print and digital communication.

EDUCATION

MSc in Management in Conservation & Biological Resources — Aristotle University of Thessaloniki, 2022

BA & Integrated MSc in Economics of Agriculture — Aristotle University of Thessaloniki, 2013

BA in Graphic Design — 1st IEK Larissa, 2015
